BROOKLYN CHILDRENS MUSEUM

Learn how to incorporate environmental education into any classroom. With cross curricular connections for NYC standards, each of these **FREE** workshops is a great opportunity to enrich your classroom teaching for the coming year.

All workshops will be held at the Brooklyn Children's Museum, 145 Brooklyn Ave., Brooklyn, NY 11213.

Intro to Service Learning (pK–6)

Saturday, August 6, 10am–4pm

How can you incorporate service learning into your classroom? GenerationOn will provide an introduction, focusing especially on service learning for very young children, providing you with opportunities to develop a plan for your classroom. You will also receive a copy of their cross curricular standards-aligned guides that encourage young people to explore global and local issues, learn and practice life skills, and create partnerships with their community. The service projects suggested are child-friendly, tested and ready to introduce to your students.

4Es of Energy (K-6)

Saturday, August 13, 10am–4pm

This interactive workshop promotes an understanding of energy's relationship with the environment, our economy, efficiency AND the all-important "E" - education. You will use hands-on activities to explore energy forms and sources, global climate change and actions we can take to address the energy challenges we face. Participants will walk away with both the ABCs of Energy (K-3) and the 4Es of Energy (4-6) curricula.

Project Learning Tree (pK–6)

Saturday, August 20, 10am–5pm

Project Learning Tree is an award winning, multi-disciplinary environmental education program for educators and students in Pre K–grade 12. Topics for the hands-on lesson plans focus on forests, but also include wildlife, community planning, recycling and energy. This workshop will be hosted by staff from the Department of Environmental Conservation, who provide the curriculum to each workshop participant.

My Green Community (pK–6)

Saturday, August 27, 10am–1pm

Join the Brooklyn Children's Museum's educational team for a workshop on inquiry-based, hands-on experiences exploring what it means to live in a "green community" like New York City. We will give you a copy and walk you through "My Green Community," a unit plan designed by BCM that ties in with NYC curriculum and standards for pre-K through grade 6 and explores green community features. Activities and lessons include links to literacy, math, science, social studies and the arts.

Pre-registration required!
