BCM Activity Kit: Block Party

Designed for children 4 and up
Dear Families,

Every summer the streets of Brooklyn are filled with block parties. Neighbors of all ages jump in bounce houses, eat ice cream, make music and play games together to celebrate our communities.

A few years ago Brooklyn Children's Museum (BCM) worked with photographer Anderson Zaca on an exhibit that brought the block party experience to our building in the middle of December! It was cold outside, but we could pretend we were having summer fun in the warmth of our museum.

We might not have been able to have block parties this past summer of 2020, but we hope that BCM’s Block Party activity kit helps you imagine being at a street festival any time. Try the activities in this booklet or create your own projects using the kit materials.

Let us know what you think about this activity kit by tagging @bcmkids and #brooklynchildrensmuseum or e-mailing: education@brooklynkids.org. We look forward to seeing you at Brooklyn Children's Museum again soon!

Love,
Your friends at Brooklyn Children's Museum

---

**BLOCK PARTY** is a portable kit of materials and ideas for hands-on fun.

This kit includes activities and tools to create your own artwork.

Block Party was an exhibit presented at Brooklyn Children’s Museum in 2017 in partnership with Anderson Zaca, a Crown Heights-based photographer and artist who has documented summer block parties throughout New York City for the last 15 years. The exhibit brought the fun of Brooklyn summertime indoors and featured elements of the iconic Brooklyn block party- stoops, street games, DJ tunes, and neighborhood celebration. Many thanks to Anderson Zaca for his continued artistic partnership and generous support.

---

**STOOP SELFIES**
Take a picture of yourself on your stoop and share the fun!
Tag your selfie: @bcmkids and #brooklynchildrensmuseum

All photos courtesy of Anderson Zaca unless otherwise noted
**HIT THE PENNY**

1. Place the penny on the sidewalk.
2. You and a friend stand on opposite sides with the penny in between you.
3. Take turns throwing the rubber ball at the penny. Each hit is worth 1 point. Flipping the penny from heads/tails or tails/heads is worth 3 points!
4. First person to 15 points (or however many points you decide to reach) wins!

<table>

</tr>
</tbody>
</table>

**TABLE SOCCER**

If it’s too cold to play outside, try this game that requires nothing but two players and a recycled foil or paper ball.

With a friend, have one player be the kicker and the other the goalie. The goalie creates a "goal" by creating an upside down "U" or "V" with their thumb and pointer finger. The kicker flicks the crumpled foil ball trying to make it in the net. You can create the rules and system of points for the number of kicks it takes to make a successful goal!

**HOP SCOTCH**

1. Anderson Zaca’s photo shows a typical hopscotch board. Try drawing your own using this as an example. If you want, you can change the shape of the boxes or orientation of the board.
2. Once your board is complete, hop on one foot from one box to another in order. When you get to the number “10” turn around and hop back to “1” again.
3. Take turns hopping with a friend. Sing a song you both know while the other is hopping. Who can complete the board first?

<table>

**HOP(E) SCOTCH**

Try this variation of hopscotch: write messages that make people feel happy on your hopscotch board.

As you hop from space to space, call out the words or message in the space you’ve landed.

**What are three positive messages you want the world to hear?**

1. 
2. 
3. 

**Kicker**

**Goalie**

**Ball**
Hey Neighbors!
Use chalk and other materials to create messages to connect with your neighbors.

Create a Chalk Message
Write a large chalk message or question on the sidewalk for your neighbors.

Heard It Through the Grapevine
Use paper cups and a piece of yarn to make homemade “telephones” so you can connect with your neighbors, family and friends.
1. Use the end of the scissors or a skewer to carefully poke one hole in the middle of the bottom of each paper cup.
2. Thread the yarn through one of the holes of the paper cup and tie a knot so the yarn cannot be pulled out of the hole.
3. Cut the yarn to the length you want for your telephone.
4. Thread the yarn through the hole of the second paper cup and tie the end with a knot.
5. Have one person hold one paper cup telephone while you hold the other. Make sure the yarn is pulled tight and is not touching anything.
6. Start chatting! Take turns speaking and listening into the cup.

Send a Postcard to Someone You Love
Pretend you are on a summer vacation and send a postcard to someone you love!
1. Using the blank postcard as your canvas, paint or draw a picture of a happy memory.
2. Let the postcard dry.
3. Send some love by mail. Choose who you will send the card to— a friend, neighbor, or family member. Write a message, add the address, and a stamp, and drop in your local mailbox. Your card will make someone’s day!

Sidewalk Chalk “Quilt”
Using chalk and tape, create a pattern, or a design with a message for your community.
Quilts are made for warmth and tell stories through their shapes, colors, and images.
1. Find an area on the sidewalk or in the park to create the quilt.
2. Draw the shape of your quilt’s outline.
3. Make a pattern on the ground using tape.
4. Color in the sections around the tape.
5. Pull the tape off to see your community chalk quilt!
JUMP AROUND!

JUMP ROPE

Jump rope and double-dutch are longtime sidewalk traditions. The rhymes and songs that kids sing are passed down from generation to generation.

Down by the banks of the Hanky Panky,
Where the bullfrogs jump from bank to banky,
With a hop, hop, hippity, hop,
Leap off a lily pad and go KERPLOP!

Down by the banks of the Hanky Panky,
Where the bullfrogs jump from bank to banky,
With a flip, flop, flippity, flop,
Leap off a lily pad and go KERPLOP!

Down by the banks of the hanky panky
Where the bullfrogs jump from bank to banky
With an eep, ipe, ope, op,
Ee-sock-a-diddly and go KERPLOP!

Miss Mary Mack Mack Mack
All dressed in black, black, black
With silver buttons, buttons, buttons
All down her back, back, back.

She asked her mother, mother, mother
For 50 cents, cents, cents
To see the elephants, elephants, elephants
Jump over the fence, fence, fence.

They jumped so high, high, high
They reached the sky, sky, sky
And they didn’t come back, back, back
‘Til the 4th of July, ly, ly!

Cinderella dressed in yella,
Went upstairs to kiss her fella.
By mistake she kissed a snake,
How many doctors will it take?
1, 2, 3, 4, 5, 6, 7, 8, 9, etc.

Do you know some of these classic rhymes or a variation? Try making up your own song or chant.

BLOCK PARTY WORD SEARCH

Search up, down, forward, backward, and on the diagonal to find these hidden words:

- HOPSCOTCH
- SUMMERTIME
- BBQ
- BICYCLE
- BOUNCY HOUSE
- CARDS
- DANCE
- WATERPLAY
- FOOD
- GAMES
- LOVE
- MUSIC
- NEIGHBORS
- PLAY
- RUN
- SCOOTERS
- STOOP
- HULAHOOP
- BICYCLE
- BOUNCY HOUSE
- CARDS
- DANCE
- WATERPLAY
- FOOD
- GAMES
- LOVE
- MUSIC
- NEIGHBORS
- PLAY
- RUN
- SCOOTERS
- STOOP
WHAT’S COOKING

Cool off with these fruity homemade popsicles

WHAT’S HAPPENING ON THE BLOCK

Can you find:
- a guitar
- a unicycle
- double dutch
- hula hoops
- sidewalk chalk
- water play
- playing dominoes
- grilling

JUICE POPSICLES

1. Pour the juice into your ice-cube tray and place in the freezer for 1 hour.
2. Take the ice-cube tray out of the freezer and place the popsicle sticks into the half-frozen cubes. If the juice is not frozen/slushy enough to hold the sticks, then wait a little longer.
3. Place the ice-cube tray back into the freezer.
4. Wait until the cubes are completely frozen and enjoy your cool treat!

MATERIALS
- ice-cube tray (or small paper or plastic cups)
- your favorite juice
- popsicle sticks

11. Oakland Avenue between Harvest and Mathews Avenue, Staten Island, 2011
12. 223rd Street between Bronxwood and Paulding Avenue, Bronx, 2010
WATER PLAY

The first fire hydrant in New York was installed in 1808 and was probably made of wood. Today, hydrants are made of iron and weigh around 500 lbs. Fire hydrants are used by the New York City Fire Department to access water to fight fires. At block parties, hydrants are sometimes opened up to spray water for people to cool off and play, but be careful—an open hydrant uses as much water in one hour as an entire family uses in a year! If you want to use a fire hydrant to cool off on hot summer days, visit your local New York City Fire Department and ask them to install a sprinkler cap and open the hydrant for you. Never open a fire hydrant on your own.

SPRINKLER FLIP BOOK ANIMATION

Make your own flip-book animating a fire hydrant sprinkler!

1. Draw a fire hydrant on 10-15 pages in the lower right corner of your notebook. Try to make your drawing on each page the same size and shape.
2. Now, it’s time to spray the water! Starting on the first page, gradually draw more and more water coming out of the fire hydrant per page, so on the last page there is a lot of water.
3. Flip through the pages rapidly and watch your flip book animation come alive.
4. Add other drawings to add more action to your animation!

MATERIALS
- notebook
- pencils, crayons, or other art supplies

BUBBLES EVERYWHERE

Recipe for Bubbles
Mix gently together:
- 2 cups warm water
- 1/3 cup dish soap
- 1/4 cup corn syrup

This mixture works best if you can let it sit for a few hours in an air-tight container, but you can also use right away!

GIANT Bubble Wand

1. Pour your bubble solution into a large tray.
2. Thread the string through both straws and tie a knot at each end. This will form a rectangular wand.
3. Put a straw in each hand and lower them into your bubble solution.
4. Bring the straws together in the solution, making sure the entire wand is submerged.
5. Lift the wand up into the air. As you raise the straws up, move your hands away from each other.
6. Move your hands together and let your bubble fly through the air.
7. Experiment with different techniques to get bigger and better bubbles.

MATERIALS
- 2 straws
- piece of heavy string or yarn about 36-48 inches long

Write or draw your favorite thing to do on your block and send it to us!
About Brooklyn Children’s Museum

Our mission
Inspired by the energy and diversity of our borough, Brooklyn Children’s Museum creates experiences that ignite curiosity, celebrate identity, and cultivate joyful learning.

Our work
Founded in 1899 as the world’s first children’s museum, Brooklyn Children’s Museum (BCM) is New York City’s largest cultural institution designed especially for families. Proudly based in Crown Heights, Brooklyn, BCM serves 300,000 children and caregivers annually with exhibits and programs grounded in visual arts, music and performances, natural science, and world cultures. Visit us at www.brooklynkids.org and share your work with us on Instagram by tagging @bcmkids #brooklynchildrensmuseum. Tell us what you thought of this kit! E-mail us at education@brooklynkids.org.

Block Party Activity Kit Education team:
Hana Elwell  Vice President, Exhibits & Education
Alexandra Bynoe-Kasden  Coordinator of Public Programs
Kate Calleri  Curator and Manager of Collections Interpretation
Mia Beurskens  Graphic Designer

About the Artist
Anderson Zaca has been documenting block parties in NYC tradition since 2005, capturing over 200 block parties in all of their revelry. Using a 35mm camera and audio recorder he traveled to every borough with a quest and a camera, capturing the interactions and energy of neighbors of all ages. Zaca’s book of block party photographs was published in 2015, and a screenplay based on the book is in pre-production, with filming planned for 2018. Zaca’s documentary film based on the creative competitions of Brazil’s annual carnival celebration will be released in January 2019.

Leadership support for art programs is generously provided by:

Peggi Einhorn and Michael Lasky, Lincoln Center Cultural Innovation Fund, which is generously supported by The Rockefeller Foundation and administered by Lincoln Center, the National Endowment for the Arts, the New York City Department of Cultural Affairs in partnership with the New York City Council; The Pierre and Tana Matisse Foundation, and New York State Assembly Member Joseph R. Lentol.

In addition to our leadership art funders, Brooklyn Children’s Museum’s programs are made possible by:
The New York City Department of Youth and Community Development, the Institute of Museum and Library Services, the National Endowment for the Humanities, New York City Council Majority Leader Laurie A. Cumbo; New York City Council Member Alicka Ampry-Samuel; New York City Council Member Robert E. Cornegy, Jr.; New York City Council Member Farah Louis; New York State Senator Velmanette Montgomery; and New York State Assembly Member Diana C. Richardson.

Special thanks to our corporate and foundation sponsors:
