

Make a Chalk Quilt

Make a sidewalk "quilt" for your community using tape and chalk.

Quilts are made for warmth and to sometimes tell stories through their shapes, colors, and images. How do you want your neighbors to feel when they see the quilt? What story do you want to tell?

Materials

Masking tape
Colorful chalk

Instructions

1. Find an area on the sidewalk or in the park to create the quilt.
2. Draw the shape of your quilt's outline.
3. Make a pattern on the ground using tape.
4. Color in the sections around the tape.
5. Pull the tape off to see your community chalk quilt!
6. Add positive words or phrases around your quilt, if desired.

Go Further

Adding a splash of color or a positive message to your community's sidewalk will brighten someone's day.

With some help from your neighbors, can you quilt the whole block?
